

MICROCLEAN

Precision dry ice blast cleaning.

Absolute Precision.

When precision counts, the single hose electric i³ MicroClean featuring Cold Jet's patented shaved dry ice technology is your best choice. This environmentally responsible system enables you to clean delicate surfaces and complex cavities and crevices that other machines can't reach—without surface abrasion, disassembly, or harmful secondary waste.

KEY BENEFITS

- Designed for precision
- Easy to maintain
- Safe operation
- Minimal air/ice usage
- Low noise operation
- Most advanced nozzles
- Rugged construction
- Table-top footprint
- Rectangular or round swaths

i³ MicroClean nozzles are designed to minimize air consumption while providing exceptional accessibility and maximum precision cleaning performance.

ERGONOMIC APPLICATOR

- Ergonomic tilting head
- Built-in LED lighting
- Safety switch
- Extremely durable
- Minimizes fatigue
- Lightweight

Specially-designed applicators improve the blasting experience.

Cold Jet's patented feeder technology creates shaved dry ice on demand.

While pellets are most suitable when removing heavy, thick contaminants, shaved ice is ideal for cleaning delicate substrates, intricate geometries or tiny openings.

DIMENSIONS	WEIGHT	FEED RATE	BLAST PRESSURE RANGE	DRY ICE CAPACITY
22 x 16 x 20 in	125 lbs	0 - 1.2 lb/min	up to 125 PSI	20 lbs
56 x 41 x 51 cm	57 kg	0 - .5 kg/min	up to 8.6 bar	9.1 kg
